Budget and Town Report:

Appropriations:

- Dot Maggio sent out an email regarding a desired format in the town report for listed appropriations. The total amount of appropriations is \$10,561.00. Bruce Mello likes the format. Dot Maggio will meet tomorrow morning with Gwen Tanza who will assist in placing appropriation requests and requesting entity's annual summary report in a ring binder. Article 9 does not have all 21 requests. Dot wishes that each request of \$1,000 or more be in its own separate Article. Significant discussion occurred about requests of \$1,000 or more and their grouping in an orderly fashion. Mr. Mello stated that he had concern regarding possible objections to specific requests. Stan, who typed the document, indicated he would agree on whatever format the board desired but he would not type it again. He found himself retyping it after 12:30 AM at night after 13.5 hours trying to deal with other Town Report documents and encountered a difficult format for this document which ultimately needed to be retyped in entirety. At that late hour he settled for an easier format as a compromise to the recently agreed upon format.
- Stan Noga explained the language of Articles 2 and 3.

Auditors report:

- Dot Maggio summarized the status of the auditors' report. The auditors need the final fiscal year 23-24 budget. The select board must complete the fiscal year 23-24 budget and send to the Treasurer. Upon treasurer's review and formatting, the budget must be sent to the Auditors for review. Auditors will then be able to issue their report. Both budget and auditors' report must be sent to David Jones by 01/24/2023 for formatting and preparation of the Town Report for printing.

Employee Pay Rates:

- Upon discussion of pay rates, it was consensus of the select board to elevate the hourly rate of the Brookline town clerk and treasurer to \$23 per hour. The increase in budget for pay raises in FY24 will be covered by use of ARPA funds. At a future date formal vote of the select board will occur in compliance with ARPA requirements stating the amount needed to cover said raises.
